Catalog Term: The Catalog Term determines the specific curriculum requirements a student must follow. If using "Generate New Evaluation" it is the semester in which the student declared their major. If using "What-If Analysis" it appears on the degree evaluation and is the same as "Entry Term".

Curriculum: The programs offered at Nova Southeastern University are what constitute the curriculum. These include such basics as student level, degree and major.

Degree Evaluation: Compares completed coursework against degree requirements and is presented in a report.

Entry Term: The semester of the catalog year the requirements are evaluated against. See Catalog Term.

Evaluation Term: The term for which the student's coursework is being evaluated. The current term should always be used for the Evaluation Term.

Expected Graduation Date: Please ignore the Excepted Graduation Date. At NSU, the expected graduation date does not always reflect the actual expected date of graduation or the date may not be entered.

Met: Indicates requirements for a program or area that have been satisfied.

Not Met: Indicates requirements for a program or area that have not been satisfied.

Overall GPA: Current grade point average for all courses taken at NSU, particularly for undergraduate students.

Program: see Curriculum.

Program GPA: The GPA requirement for the program, particularly graduate programs.

Result as of: The date the degree evaluation was generated.

Used: Indicates the number of credits used for the degree evaluation.

Unused: Indicates the number of credits not used for the degree evaluation. Generally contains courses with the grades of F or W.
